Additional Information on Students / Create New
February 16, 2024

Here at SameGoal, we're constantly working to improve user experience and make our users' jobs as easy as possible. Having the right information easily accessible can go a long way in saving users time.

That's why we've increased the amount of information that displays for each student on the **Students / create new page**. Now, you'll be able to see a student's grade, gender, and building listed alongside their name, student ID, and program participation information when searching for students.
