

## Bulk Load Absences

*Bulk Load Absences*  
*February 21, 2025*

We're happy to announce that tracking student absences just got easier with the new ability to bulk load absences! Student absences can affect deadlines and reporting. In the past, users needed to manually enter absences on a student's **Details** tab for them to influence deadline calculations or reports. At SameGoal, we're committed to improving workflow efficiency and saving our users time, which is why we're very excited about the new bulk loading feature for absences!
