CEC Convention & Expo

CEC Convention & Expo
March 12, 2024

The CEC Convention & Expo stands out as a leading event for professional growth in special education. Each year, thousands of professionals come together to share their ideas and learn from other industry experts.

SameGoal will be attending the conference this year to talk to districts about how we can help you waste less time on paperwork, streamline collaboration districtwide, and retain special programs staff.

If you're interested in learning more about SameGoal's simplified approach to special program documentation, we encourage you to stop by booth #1405 to talk to one of our team members.
