Enhanced EMIS Reports

Enhanced EMIS Reports
November 4, 2020

Newly enhanced EMIS reports are now available in SameGoal by visiting Reports (left menu) > Special Education > EMIS. Enhancements include:

- **Valid/Invalid record filter** - EMIS reports may now be run to include valid records, invalid records, or both.
  - Invalid records populate an error reason in the "Errors" column of the web report so they may be easily surfaced and resolved.
  - A "Doc" link is provided in the left-most column for each EMIS record in reports, making it easy to inspect and resolve source data.
- **Building filter** - Run EMIS reports per building.
- **Additional filters** - Run EMIS reports for students with specific "District Enrollment" or "Program Enrollment" statuses when necessary.
- **Improved speed** - EMIS report generation times are significantly decreased, saving administrative time.
