

## Guardian Share 2024

Increased Guardian Share July 19, 2024

We have increased the number of guardians that a document can be shared with from two to four. This helps to make collaboration with parents easier and is more inclusive to students who have more than two guardians.

**Steps** *To share a document with a parent:* 

- 1. Visit the document you wish to share with a parent. Click the **Share** tab.
- 2. Click the **Share with Parent/Guardian** button under **Add Collaborator**.
- 3. Enter the required fields:
  - First name: Parent/quardian first name.
  - **Last name:** Parent/guardian last name.
  - Email: Parent/guardian email address.
    - If the parent/guardian email is listed on the student's **Details** tab, you will be able to select the email from a dropdown.
  - **Permission:** Select whether the parent should have Can View & Sign or Can View access.
- 4. Click the **Send** button. The parent will be emailed document access and added to the **Collaborative Team** on the **Share** tab.
