Infinite Campus Digital Learning Partner Integration and API

Infinite Campus Digital Learning Partner Integration and API
July 27, 2023
Last Updated: September 20, 2023

In March of 2022, SameGoal and Infinite Campus formed a new partnership. We have continued working closely together and are deploying our improved OneRoster based Infinite Campus Digital Learning Partner integration to all interested clients.

Additionally, we are releasing our general purpose API allowing both districts and vendors to better interoperate with SameGoal. Districts that have an Infinite Campus integration with SameGoal are encouraged to switch to the Digital Learning Partner integration to enable demographic, flags/program participation, and reporting integrations. Instructions can be found on the Infinite Campus Digital Learning Partner Integration support page.
