

Enhanced Image Tools

Enhanced Image Tools

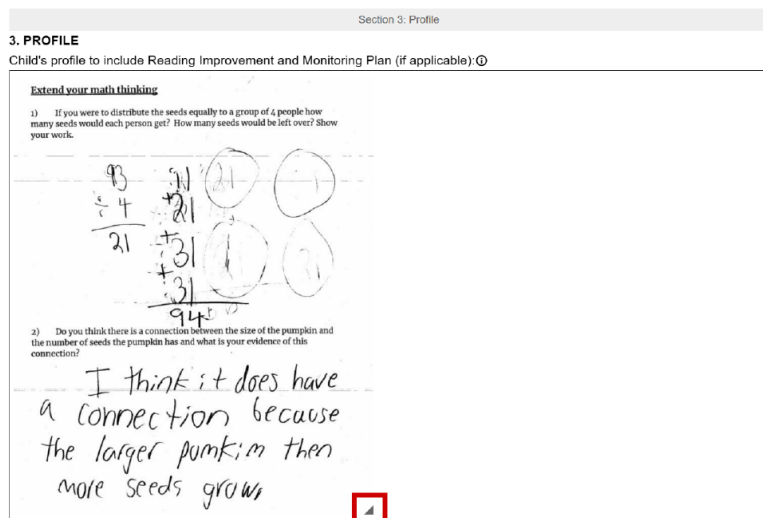

November 15, 2024

Inserting images into SameGoal documents is about to get even easier! Along with the existing options to copy and paste, or click and drag images into text fields, we're in the process of rolling out a new feature that allows you to upload images directly from your computer.

A new **Image Insert** button will be available in the rich text editing toolbar, making it simple to select a file from your device and insert it directly into the text field.

In addition to being able to insert images more easily, you will also be able to resize images in a text field in order to achieve the desired formatting.

When authoring documents, it can be helpful to include examples of student work, submitted documentation from third parties, and more. These enhanced image tools will make it easier for document authors, collaborators, and parents to access useful visual information.

 Tip

 Tip

Zoomed in window:

Form

Provide data about the child's progress in the general curriculum or, for the preschool-age child, data pertaining to the child's growth and development:

Zoomed out window:

Form

Provide data about the child's progress in the general curriculum or, for the preschool-age child, data pertaining to the child's growth and development:

6 months

26 26 26 26

26 26 26 26

Total cats = 1 + 66 + 6x26
= 1 + 28 + 216
= 253
So it's not realistic

3 years

26 26 26 26

26 26 26 26

Conclusion: -
The mother has 28 kittens in a year each year, 6 kittens in each.
In a year and a half she took the family off her 9846
First cat in a year!

Provide data from previous interventions, including interventions required by rule 3301-35-06 or, for the preschool child, data from early intervention, community or preschool providers:
