SameGoal Login Links

SameGoal Login Links
July 1, 2022

SameGoal was created in 2008 as a spin-out company dedicated to the development, growth and support of "IEP Anywhere". IEP Anywhere, at the time, was a software program dedicated exclusively to document management for IEPs, with 18 districts onboard. Over 14 years and 850+ new districts/LEAs later, SameGoal now offers a robust platform for Special Programs, including Special Education, Section 504, Advanced Learners, English Learners, RTI/MTSS and K-4 Literacy.

Simply put, we've outgrown our legacy product name "IEP Anywhere". Effective for the 2022-23 school year, SameGoal will no longer refer to or market itself under this legacy product name.

Update Your Login Links: Many districts and ITCs link to district-specific SameGoal login pages from their website (often with language referring to IEP Anywhere). To help districts and ITCs update their login links, we've created a **stylized district-specific login link** that can be embedded within any webpage. The HTML code snippet can be found by clicking the "Link to this page" link in the bottom right of any district's SameGoal login page. Learn more

Example login link for Orange Grove City Schools:
