

Spedster Webinar

Spedster Webinar: IEP Made Easy
October 4, 2024

SameGoal was recently invited to join Spedster, an organization that aims to inform and assist special education-focused groups and educators, for a webinar where we had the opportunity to discuss the different ways we support organizations with document authoring, management, and compliance.

At SameGoal, our mission is to simplify special programs, including special education, Section 504, English learners/LPAC, Gifted & Talented, RTI/MTSS, and more. During this webinar, we discussed several key features that help districts to:

- Minimize their staff's time and resources
- Communicate effectively with parents and general education staff
- Ensure compliance and mitigate risks

A special thank you goes out to Dr. Kurt Hulett, Candice Lewis M.Ed, and Amarilis Rivas from Spedster for inviting us to share our expertise.
