

## Suggested Accounts

*Suggested Accounts*

*May 23, 2025*

We recently added **Suggested Accounts** for users who log in from the SameGoal Sign In page!

The screenshot shows a "Sign In" form for "Cherry Grove ISD". The form includes a "Show suggested accounts" link (highlighted with a red box), a "Change district" link, an email input field containing "caitlin@example.com", a "Remember me?" checkbox, a blue "Next" button, and links for "Need phone support?", "Forgot password?", and "Link to this page". A footer note says "To bookmark this page, press Ctrl-D".

This new feature will help to streamline account navigation for users who have SameGoal accounts in multiple districts. If a user selects **Remember me?** while logging into SameGoal, the account they log into will be added as a suggested account. Then the next time they add a linked account or log in from the Sign In page, we will show their suggested accounts.

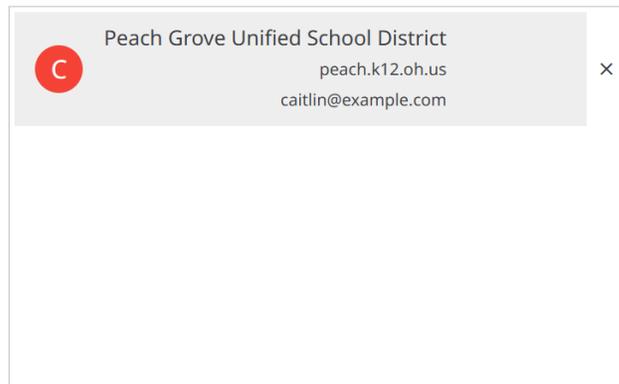

With suggested accounts, users will no longer need to search for a district when adding a linked account or when logging into a new account after they've logged out. Additionally, they will not need to manually enter the email address for the suggested account – they will only need to provide the password.

**Current account:**

**Account to add:**

Previous account(s):

A screenshot of a suggested account card. The card has a light gray background and a white border. On the left side, there is a red circular icon with a white letter 'C'. To the right of the icon, the text reads: "Peach Grove Unified School District", "peach.k12.oh.us", and "caitlin@example.com". On the far right side of the card, there is a small black 'X' icon. Below the card, there is a blue link that says "Search district".

**Steps** *To link accounts using suggested accounts:*

1. Go to your **Account Menu**.
2. Select **Add Account**.
3. Enter your password for the current account.
4. Suggested accounts will appear in the **Account to add** section. Select which account you would like to link.
5. Enter your password for the account you're adding.
6. Click **Save**.

**Steps** *To log in using suggested accounts:*

1. Navigate to the **Sign In** screen.
2. Click **Show suggested accounts**.
3. Select the account you would like to log into.
4. Enter your password.
5. Click **Sign In**.

**Steps** *To remove suggested accounts:*

- Remove a suggested account from the **Sign In** screen:
  1. Click **Show suggested accounts**.
  2. Click the **X** next to the account you wish to remove.
- Remove a suggested account from the **Linked Accounts** page:
  1. Go to your **Account Menu**.

2. Select **Add Account**.

3. Click the **X** next to the account you wish to remove.

---

 **Tip** You only need to select **Remember me?** once in order to add an account. It will continue to be listed as a suggested account unless you remove it.

 **Tip** When adding a linked account, only suggested accounts that match the name associated with your current account will be shown.
