

Translation Updates

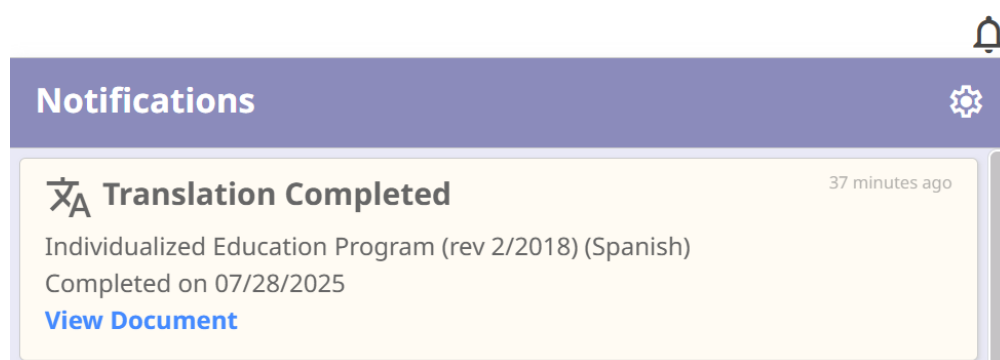

Translation Updates
August 1, 2025

We recently made a couple of exciting updates to our translation feature, which is available to districts on the PRO edition of SameGoal:

- Translation Completion Notifications
- Translation Validations

Translation Completion Notifications

With the addition of translation completion notifications, when a translator marks a form or document translation complete, a notification will be sent to whomever requested the translation. These new notifications will help to streamline translation workflows as users will no longer need to manually check to see if a translation has been finalized.

Users can change how they receive notifications (i.e. in-app, email, web push) by updating their notification preferences.

Steps To configure your notification preferences for translation completions:

1. Click on the bell icon [🔔] in the top right of your screen.
2. Click on the settings icon [⚙️] in the top right of your notifications tray.
3. While on the **Notification Settings** page, check or uncheck the notification checkboxes to specify how you would like to receive notifications for **Translation Completions**.

Topic	Notification when	🔔	✉️	📄
Bulk Actions	A long-running bulk action has completed	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Document Share	A document has been shared with you	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Guardian Activity	A guardian has modified field(s) on a document for which you are an owner	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Meeting Mode	A meeting mode view has been shared with you	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Permission Requests	Another user has requested permission to a document you own	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Translation Completions	A document or form translation request has been completed	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

 **Tip** As a reminder, you can check the status of a document translation request at any time in the Document History panel.

Translation Validation Checks

Document translations will now run validation checks to ensure all fields have been translated before a translation can be marked complete. When a translator attempts to complete a translation, if there are fields that have not been translated, a **Validation Errors** warning will pop up with a list of the remaining errors.

Validation Errors 

This document could not be marked complete due to validation errors.

↳ Individualized Education Program (rev 2/2018)	1020 format checks run, 1 errors
↳ EMAIL:	All fields must be translated.

Document may not be marked complete until the above validation errors are resolved.

Cancel

This will help to ensure that translators do not accidentally leave fields blank or mark translations complete prematurely. If a field truly does not need to be translated, the translator can select **This field is not translatable** in order to satisfy the validation check.

☐ This field is not translatable.
CELL PHONE:

☒ This field is not translatable.
EMAIL:

Once all translation validation checks have been satisfied, the translator can mark the translation complete.
