

## FIE Impact Statement

*FIE Impact Statement*  
*September 26, 2025*

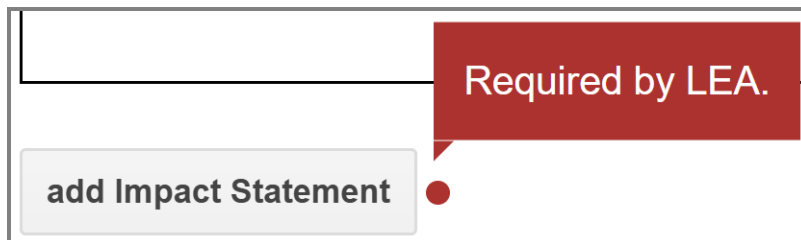

Impact statements describe the effect of a student's disability on their involvement and progress in the general education curriculum. According to the TEA, it is best practice to include an impact statement in the FIE.

Thus, in the Full and Individual Evaluation, we've included an additional **Impact Statement** that can be added in Section 4 (Recommendations to the ARD Committee) in order to document this information.

The screenshot shows a web form titled "IMPACT STATEMENT" with a close button (x) in the top right corner. Below the title is a question: "How does the disability impact the student's access and progress in the general education curriculum?". Underneath the question is a large, empty text input area. At the bottom left of the form, there is a button labeled "add Impact Statement".

Additionally, districts may choose to make the impact statement required in the FIE, similarly to how it can be made required in the IEP.

The diagram shows a simplified version of the form. It features a text input field at the top. Below it is a button labeled "add Impact Statement". A red callout box with a white border and a red dot points to the button, containing the text "Required by LEA.".

**Steps** *To make the Impact Statement required:*

1. While logged in as an administrative user, go to **Settings > District Information**.
2. Scroll down to **Special Education Information**.
3. Check the **Enable** box for “Require FIE impact statement”.
