- G/T Furlough Request Review

**💡 Tip** With the addition of new forms, administrative users will need to update user role permissions in order for the forms to be accessible to non-admin users.

## Workflow Enhancements

We have made several updates recently to help streamline Gifted/Talented workflows.

MAP and CogAT scores can now be added into the system and documented in a student's **Details** tab.

- These scores will then automatically prefill the **Identification Matrix** in the **G/T Student Identification Profile** upon document creation.

Administrative users can set district cutoff CogAT and MAP scores. (**Settings > District Information > Gifted and Talented Information**).

- These scores will also automatically prefill the **Identification Matrix** in the **G/T Student Identification Profile** upon document creation.

Many districts like to conduct “blind” reviews of the **Student Identification Profile** in order to identify gifted students in an unbiased manner. Our new Meting Mode feature has a “Present limited” option that supports this workflow.
