

District Partnerships

The mission of SameGoal's district partnerships team is to expand product adoption and impact through sales and account management to school districts, state agencies, and charter networks.

Local district partnership team members work remotely from the state and/or region that they represent for SameGoal. They frequently meet with districts onsite for meetings, demonstrations, and attend local conferences. Local team members are supported by senior district partnership team staff and implementation specialists, connecting daily over video calls and frequently in-person in the field.

Meet the Team

Chantelle - Account Executive

Amy - Implementation Specialist
