

## EMIS Crosswalk

SameGoal exports Special Education-related EMIS records using the Ohio EMIS Manual Chapter 5 file format.

- GE record
- FE record
- GQ record
- FD record

### GE record

The Student Special Education (GE) Record tracks Special Education events documented in student Individualized Education Program, Evaluat  
GE Records contain the following data elements:

| Sort Type | Fiscal Year | Data Set | Building IRN                          |
|-----------|-------------|----------|---------------------------------------|
| GE010     | GE020       | GE030    | GE040                                 |
| GE        | YYYY        | S        | NNNNNN<br>Student Details: "Building" |

And there are 15 Date Type elements that generate a GE record:

| Date Type | Date   | Outcome ID  | Non-Compliance ID                             | Outcome Beginning Date  |
|-----------|--|---|---|---|
| GE100     | GE110  | GE120   | GE130   | GE140   |

[1] IEP Test Type (descending priority)

- ALT when IEP Section 12: "Is the child participating in alternate assessment" is "Yes"
- STA when IEP Section 12: "Will the child participate in classroom, district wide and state wide assessments with accommodations?" is "Y"
- "\*\*\*\*" when IENS, IEPR, IEDP
- STR by default

## FE record

The Student Special Education Graduation Requirement (FE) record tracks student graduation exemptions in each subject for the Ohio Grad implicitly stateful (e.g. no record is required if the student has never been exempt in a given subject, but a record IS required if the student g single record for EVERY subject for OGT and EOC in each IIEP, RIEP, AIEP and TIEP (whether or not Exemption Flag is Y or N). Consumer proce had an Exemption Flag = Y record for a given subject in the past.

| Sort Type | Fiscal Year | Data Set | District IRN  | EMIS Student ID                               | IEP Date Type              | IEP Date                       | Assessment Type Code | Assessment   |
|-----------|-------------|----------|---|---|----------------------------|--------------------------------|----------------------|--|
| FE010     | FE020       | FE030    | FE040   | FE050   | FE060                      | FE070                          | FE080                | FE090  |

## FD record

The Student Attributes-Effective Date (FD) Record uses "open"/"close" records. In other words, one event "opens" a new record and provides providing an end date. These record semantics are challenging, since (1) open/close events are often recorded in disparate systems; (2) ever means the new SIS needs bootstrapped records to start from; and (3) the FD record contains data elements known by different groups of people (etc).

The role of Special Education and Section: 504 in the FD record is namely to track changes to FD130 "Disability Condition" and FD140 "Student being served by 504 Plan". SameGoal exports Special Education records for the following cases as "open" records and provides the following guidance to consumer systems: elements, the value of the other element will be carried forward from the immediately previous record. If changes to both FD130 and FD140 open record.

| Case   | Sort Type | Fiscal Year | Data Set | District IRN  | EMIS Student ID                               | Effective Start Date  | Effective End Date | Disability Condition  | Student being served by 504 Plan | Homeless Status | Homeless Unemployed |
|--|-----------|-------------|----------|---|---|---|--------------------|---|----------------------------------|-----------------|---------------------|
