Section 504 Forms

Section 504 of the Rehabilitation Act of 1973 is a federal civil rights law that prohibits discrimination against persons with disabilities. Because enforcement is at the federal rather than state level (the U.S. Department of Education, Office for Civil Rights (OCR) enforces Section 504), few state education agencies provide model Section 504 forms.

SameGoal includes Section 504 Forms developed by the "Equity & Civil Rights" division of the Washington Office of Superintendent of Public Instruction. These forms are customized in SameGoal to address state-specific legislative requirements and more closely align with form layouts districts are accustomed to.

Forms include:

- Referral for Section 504 Evaluation
- Notice of Parent/Student Rights (provided as an additional view to most 504 forms)
