

Child Reading at Grade Level

Child reading on grade level

When a child is determined to be back on track with a reading diagnostic, their Reading Improvement and Monitoring Plan can be discontinued.

Steps *To discontinue the RIMP*

1. Create a **RIMP: Discontinuation**.
2. In the **Date** field, enter the date the discontinuation document is being completed.
3. In the **Effective Date** field, enter the date the discontinuation is effective.
4. It can be helpful to provide the diagnostic test results in the **Additional Information** field.

When the document is completed, the student will be unenrolled from the K-4 Literacy program as of the effective date. Entering the on-track date in the RIMP is not sufficient the unenroll the student from the program. The discontinuation document must be filled out.
