

RTI Tier Guidance

The basic RTI/MTSS workflow is Plan, Progress Report, Follow-Up.

There are two sets of RTI/MTSS forms in SameGoal; one for Tier 2 and one for Tier 3. The Tier 2 and Tier 3 documents are very similar but are kept separate to help track a student's movement between tiers.

If a student is receiving Tier 2 interventions, they should have an **RTI Tier 2 Plan**, an **RTI Tier 2 Progress Report**, and an **RTI Tier 2 Follow-Up**. Conversely, if a student is receiving Tier 3 interventions, they should have an **RTI Tier 3 Plan**, an **RTI Tier 3 Progress Report**, and an **RTI Tier 3 Follow-Up**.

A student may have multiple sets of RTI documents open simultaneously if they are in different tiers in different subjects/areas. In this case, they would have Tier 2 documents *and* Tier 3 documents.

However, only one set of documents is needed per tier. For example, if a student is receiving tier 2 interventions in multiple subjects, all tier 2 interventions can be tracked in a single **Tier 2 RTI Plan**, a single **Tier 2 Progress Report**, and a single **Tier 2 Follow-Up**.
