State Performance Plan Indicators

SameGoal helps districts report data for SPPIs. However, most SPPIs do not require a separate SPPI report in SameGoal as they are addressed as follows:

- **SPPIs 1, 2, 3, 4, 9, 10, 14:** LEA's SIS is the canonical data source for key SPPI data, while SameGoal is the canonical data source for disability/IEP data. Data from SameGoal is integrated back to the SIS for SPPI reporting from the SIS.
- **SPPIs 5, 6:** SameGoal is the canonical data source. SPPI reporting is addressed by state reporting in SameGoal.
- **SPPIs 11, 12:** SameGoal is the canonical data source. SPPI reporting is addressed by state reporting in SameGoal.
- **SPPIs 8, 15, 16, 17:** Data is captured outside SameGoal.

SPPIs 7, 13: These SPPIs are the only indicators not addressed above. SameGoal provides an SPPI report for each that assists in submitting required data to TEAL.
