

Related Service Logging

Service providers are able to log services directly in SameGoal.

Steps *Log related services:*

1. Ensure the related services the student will be receiving are documented in Section 7a of their IEP.
 - This acts as their prescription for service.
2. Complete the IEP.
3. Create an **IEP Related Service Log** for each related service the student will receive.
 - All related services, goals, and objectives will be pulled from the completed IEP automatically.
4. Enter in the **Provider**.
5. Check all related services and goals that are addressed.
 - Optionally, delete goals and services that are not relevant.
6. Add a log for each service.
 - **Advanced Log:** Used for billing SHARS. This section includes all information needed to bill SHARS for reimbursement. Based on district policy, use an advanced log when a student is eligible for Medicaid and/or if the service is billable.
 - Enter the date and time of service.
 - Specify what the primary activity was.
 - Enter the setting and location of the service.
 - Provide any notes from the session.
 - Provide a student observation.
 - State which goal/objective was addressed and summarize any progress.
 - Provider signs off on the service.
 - **Basic Log:** Used when the district will not be submitting a claim to SHARS for reimbursement.
 - Enter the date and time of service.
 - Enter the setting and location of the service.

- Provide any notes from the session.
- State which goal/objective was addressed and summarize any progress.

7. Document progress as needed.

8. Leave the document open while service continues and complete the document once services have concluded.
