

Aeries Demographics Integration

This integration imports student and parent demographics data from Aeries into SameGoal on a nightly basis. Demographics information appears on each student's "Details" tab in SameGoal, and auto-copies into documents as they are created for each student.

Setup

Steps *To setup demographics integration with Aeries:*

In Aeries

Use Aeries' instructions to generate an Aeries API certificate. Configure the following:

- **Product Name:** SameGoal
- **API Permissions:** Check:
 - **Student Data**
 - **Student Data:** Read
 - **Supplemental Data:** Read
 - **District Supplemental Data:** Read
 - **Contacts:** Read
 - **Attendance**
 - **Enrollment History:** Read

Copy/paste your **base URL** and **certificate** for entry into SameGoal.

In SameGoal

- Login to SameGoal as an administrative user.

- Visit **Settings** (left menu) > **District Information**.
- Under **STUDENT INFORMATION SYSTEM INTEGRATION**, locate **Aeries**.
- Click "add Nightly Demographics". Enter **Base URL** and **Certificate**.

 **Tip** This integration runs nightly. Students should appear from Aeries the following morning in your environment.
