

Cyberduck

Cyberduck is a GUI program recommended for connecting to your SFTP account manually from time-to-time and one-time uploads.

- Supported platforms: Mac[™]
- Connection requirements: Use your OpenSSH-style public key (**id_rsa.pub**) and OpenSSH-style private key (**id_rsa**) to connect.

Connect

Steps To connect to your SFTP account using Cyberduck:

- 1. Download Cyberduck.
- 2. After the file has downloaded, select **Open**.

3. Once the program opens, click **Open Connection**.
