

OpenSSH

OpenSSH is a command line program recommended for connecting to your SFTP account manually from time-to-time and one-time uploads.

- Supported platforms: Mac™ and Linux™
- Connection requirements: Use your OpenSSH-style public key (**id_rsa.pub**) and OpenSSH-style private key (**id_rsa**) to connect.

Connect

Steps *To upload a file using OpenSSH (example command):*

```
$ echo -e -n "put example_file.txt" | sftp -b - [your-district-domain]@sftp.samegoal.com:/upload/
```

- **example_file.txt** = any file
- Find your district domain
