Skyward SMS Demographics Integration

SameGoal uses the Skyward API to streamline demographics integration for Skyward SMS.

Steps *To setup demographics integration with Skyward SMS:*

1. Generate API Access
2. Enter API Information in SameGoal

1. Generate API Access

Generate API access for SameGoal in your Skyward SMS environment. This integration requires:

- OAuth 2.0 authentication
- Read-only access to the LMS API

Once API access is generated, save the following information for configuration in SameGoal:

- Base URL *(e.g. https://district.skyward.com/api12345)*
- Key
- Secret

2. Enter API Information in SameGoal

- Log in to SameGoal using an admin account.
- Visit **Settings** (left menu) > **District Information**.
- Under **STUDENT INFORMATION SYSTEM INTEGRATION**, locate **Skyward SMS 2.0**.
- Click **add Nightly Demographics**. Enter API information as follows:
    - API Base URL (e.g. https://district.skyward.com/api12345)

- Client Key
- Client Secret

Once you leave the page, information will be automatically saved and this integration should run overnight.
