

## TestHound Integration

Testhound is a popular application used by districts for testing coordination. This integration allows districts to automatically transfer testing and accommodation information from SameGoal into TestHound.

- Setup
- Information included

### Setup

At district request, SameGoal will enable a secure nightly CSV-based feed to TestHound. Once this feed is established, a testing coordinator will need to create a new mapping in TestHound for SameGoal.

## Information included

The integration testing information extracted from the following forms:

- **Individualized Education Program**
  - Assessment required
  - Accommodations
- **Section 504 Plan**
  - Assessment required
  - Accommodations

 **Tip** The data included in the integration can be found by visiting Reports > Testing Coordination > TestHound.
