

Clipboard Sheets

Clipboard Sheets are a read-only additional view format of the goals and objectives from an IEP. These sheets list goals/objectives in a grid which allows special education teachers to easily track Monday-Friday progress going across. Clipboard sheets eliminate retyping of goals and objectives into EXCEL which special education teachers often perform for tracking. They are typically printed out then attached to the teacher clipboard. When it's time to author formal progress reports to go home to parents, clipboard sheets are often used to confirm progress and can be attached to the progress report in SameGoal.

Clipboard Sheets can be found in the printer menu when visiting the IEP.
