

Embedded Content Guidance

State & federal content guidance is embedded when available/relevant within forms. This content guidance is designed to help you answer your own questions about content quickly. Embedded content guidance appears throughout documents in the following ways:

- Form tips
- Section tips
- Field tips

Form tips

Form tips for any form are found in the top right blue bar within any document. They link to external resources and guidance typically published by your state.

Section tips

Section tips for any form section are found in the gray section bar within any document. They link to external resources and guidance typically published by your state relevant to that particular section.

Field tips

- Field tips for any form field are found by hovering over the "i" icon next to a given field or field description.
- Generally, field tips contain form field tips or annotations published by your state department of education.
- They are also used to denote state reporting fields, when relevant.
