IEP at a Glance

IEP at a Glance is a read-only additional view of the IEP formatted for general education teachers. It typically includes IEP goals and objectives, services and testing information. **IEP at a Glance** can be found in the printer menu when visiting the IEP. If your district integrates SameGoal with your student information system in an alerts-based integration, general education teachers may see the **IEP at a Glance** when they click the student information system IEP alert.
